Subject: BABAA / NGP Products that qualify

BABAA certification requires an individual certification letter with project name, specific products on the project and manufacturing location of all items. When your project reaches the point you need that certification letter, please contact me.

All NGP products are BABAA compliant, except the following list of imported items which do not comply with BABAA:

PRODUCTS NOT COMPLYING WITH BABAA

PRODUCT	COUNTRY OF ORIGIN
9200, 9750, 9800Intumescent Gasketing	United Kingdom
BR Bronze Thresholds	Korea
PYRAN® PLATINUM L Glass Ceramic	Germany
SDG Security Door Guards	China
SLSS Stainless Steel Sliding Door Hardware	China
SL-SNFT, SL-BLFT Steel Flat Track Sets	China
SLAL-250-PDKIT series Pocket Door Frame Kits	China
SS300 series Stainless Steel Continuous Hinges	Canada

I'm not aware of any stainless steel or steel sliding hardware or stainless steel hinges that are made in the USA. So, a distributor may be able to request a waiver for those if unable to find an alternative that is made in the USA and complies.

Regards,

Roger P. Skold Jr.
